INSTALLATION QUICK GUIDE

1

CONNECT THE WIFI MODULE CABLE TO THE SERIAL INPUT OF THE PRODUCT'S ELECTRONIC BOARD (A, B or C)

CAUTION!

Carry out this operation only with the device cold and with the electrical plug unplugged.

To install the WiFi module, the outer cladding of the device must be removed if present.

For correct disassembly of the cladding, please see the cladding kit instructions. Reposition the cladding and reconnect the electrical plug when the operation has been completed.

DOWNLOAD THE WINET Connector APP FROM...

NOTE: the layout, some of the text or some graphic elements of the (i) App may differ from the version shown in this guide.

3

CONNECTION TO THE WIFI MODULE

Open the WiNET Connector App and click Scan QR Code, scan the WiFi module label and click Join.

ACCESS TO CLOUD

No device found WiNET Connector

4

CONNECTION TO THE WIFI NETWORK

Click in succession $\parallel \mid > \equiv >$ Configuration > Networks. The Select wifi network screen will appear. Click Scan for networks:

select your WiFi network and enter the password if required. Close the WiNET App and go to point 5 to register your account.

Click on Model name e.g. L023_1 and then click Yes. The screen offers a list of electronic boards: click on Product list and, once you have identified your model, click on Close > Select > Yes. Close the WINET App and go to step 6 to register the account.

ACCOUNT REGISTRATION

<u>Deactivate the WiFi connection on your device</u>, open the **WiNET** App and click **Access to cloud**. Select **Register your account**, enter the required information (<u>the name must not contain spaces</u>) and click **Register**.
